Editorial Board

REBOLtof
mardi 3 mai 2005

This document presents the mission and the composition of the "editorial board" working within this project.

Goal

The editorial board stands for guaranteeing the quality of the content and the form of the documents published on the site of the project.

Aiming to that, its members, all voluntary, are in charge of studying the documentation which is proposed for publication, and to establish :

- ▶ if it is in accordance with the objectives of the project
- ▶ if the technical level proposed is sufficient
- ▶ if the use of the language is correct

Working

The coordinator of the project (or his substitute) announces the existence of a document "proposed to the publication" to the members of the board. According to their knowledge, their affinity with the covered topic or on the time they can spare to this task, the members decide to accept or refuse the work.

Each member taking care of the examination of a document, will handle this with the needed attention and will put down his comments at the bottom of the page.

Recruting

Any person feeling interested by the work carried out here and wishing to volunteer to become member of the board, is welcome. Just take contact with the [coordinator](#).

Composition

The committee is composed of the following people, in date of the last update of the document.
